

NCKU Taiwan-Europe Connectivity Scholarship

INTRODUCTION

The Ministry of Foreign Affairs (MOFA) has launched the Taiwan-Europe Connectivity Scholarship to strengthen academic ties between Taiwanese and European universities through "university-to-university" partnerships. This invites European students to experience Taiwan's rich educational landscape, whether through enhancing their Mandarin skills or exploring other academic fields. Open to both degree and non-degree students, the scholarship supports a wide range of programs, including exchange, summer school, short-term internships, and Mandarin study. It's an exciting opportunity advancing their academic and professional goals.
